Directeur d'ESPOL et Maître de conférences en science politique

Director of ESPOL, Associate professor in political science

*Exceptional results were achieved by our first intake of students who graduated this year. This is a standard that we will maintain in the future. We are very proud of our graduates, whether they have chosen to go on to study at the best Universities in Europe or to join the job market.*

Students at ESPOL have benefited from a strong international environment, in which 30% of the student body is composed of international students. This has exposed our students to the wider dimensions of the economic and political sciences and provided them with the skills to develop their talents in the contemporary global job market. 2017 was also marked by the graduation of the first cohort of our Master's Program in Global and European Politics, which welcomed students with different backgrounds and from all over the world. Prospective students will appreciate that the student experience at ESPOL strengthens the intellectual background and opens doors for accessing emergent opportunities in this fast-moving world.

You are our best ambassadors for the years to come and we look forward to working with you to build a global, dynamic network of ESPOL ALUMNI.

ESPOL EST  
UNE ÉCOLE  
QUI S'ARTICULE  
AUTOUR  
DE 3 AXES  
PRINCIPAUX

*l'enseignement  
la recherche  
le service à la société*

La science politique est une discipline d'excellence qui assure de bonnes perspectives de carrière et une véritable ouverture à l'international. C'est dans cette veine que s'inscrit ESPOL, l'Ecole Européenne de Sciences Politiques et Sociales, en proposant une formation interdisciplinaire tournée vers les métiers du politique, de l'Europe et de l'international. Héritière de l'Ecole de sciences sociales et politiques, créée au sein de l'Université Catholique de Lille en 1894, ESPOL met l'accent sur les valeurs humaines et une éthique de responsabilité indispensables pour s'orienter dans le monde contemporain.

Cette formation bilingue français-anglais dispense la science politique au travers d'une pédagogie originale et innovante. Le cursus pédagogique en 1er et 2ème cycles donne aux diplômés d'ESPOL les clés pour réussir sur un marché du travail de plus en plus concurrentiel : connaissances théoriques et inventivité, professionnalisme et curiosité intellectuelle, compétences et sens de l'initiative.

Political Science is a discipline driven by excellence that offers attractive career prospects with a strong international outlook. Living up to this ambition, ESPOL, the European School of Political and Social Sciences, offers an interdisciplinary curriculum focused on political careers and Europe. As successor to the School of Social and Political Sciences created within the Catholic University of Lille in 1894, ESPOL emphasises human values and an ethic of responsibility as indispensable qualities for making one's way in today's world.

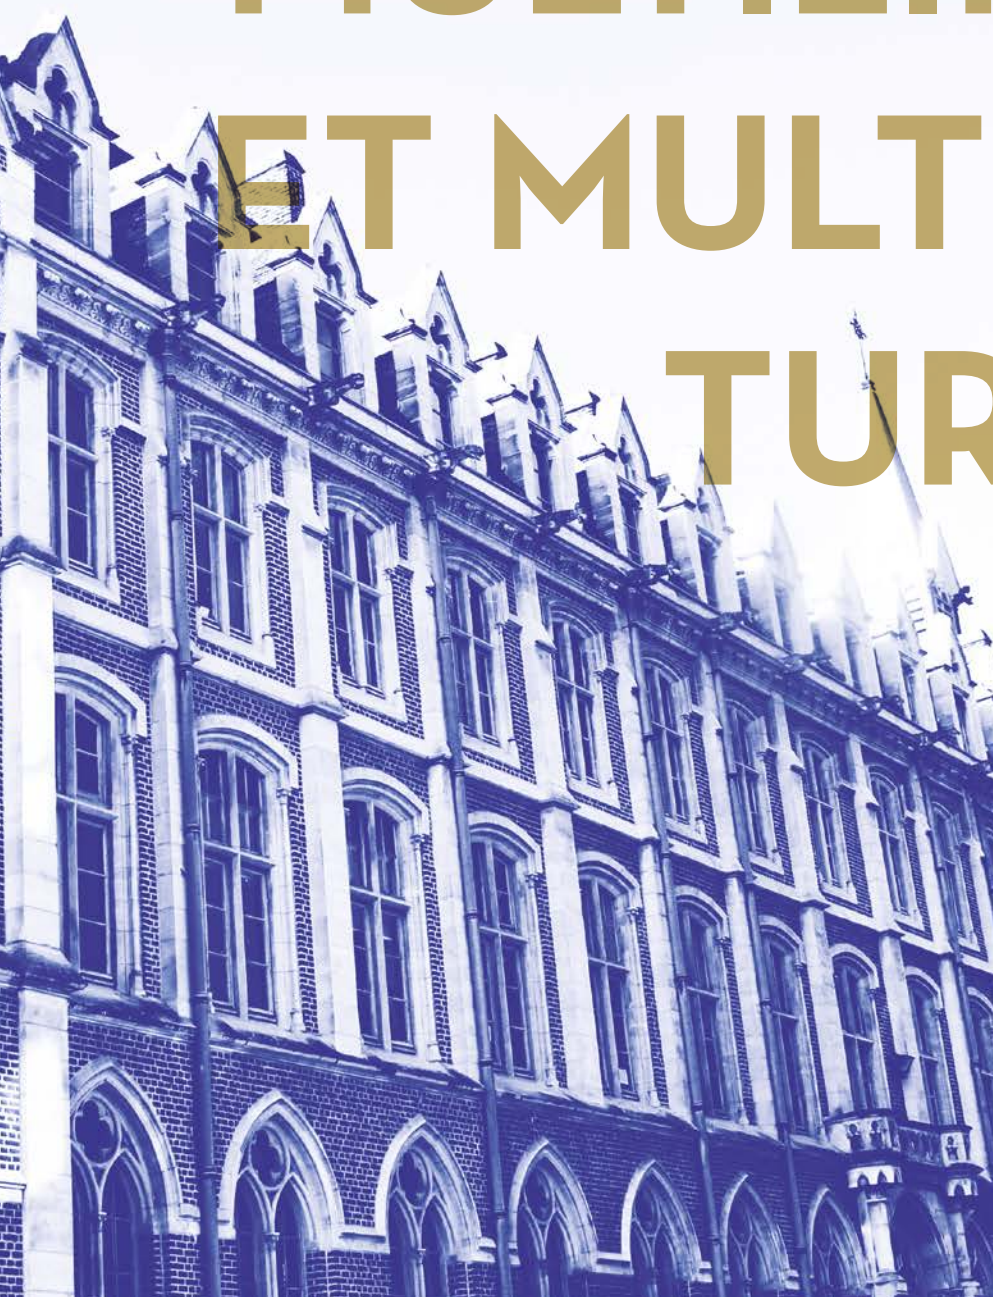

Its bilingual French-English courses provide an original and innovative platform for the teaching of political science. The Bachelor's and Master's curricula give ESPOL graduates the keys to succeed in an increasingly competitive job market: theoretical knowledge and creativity, professionalism and intellectual curiosity, skills and a sense of initiative.

*European, multilingual, in step with its time, ESPOL provides you with the requisite skill set to successfully enter the job market in Europe and beyond!*

*Européenne,  
multilingue, en  
phase avec son  
époque, ESPOL vous  
apporte le bagage  
nécessaire pour  
réussir votre insertion  
professionnelle en  
Europe et au-delà !*

### INTERSHIPS

I interned for four months at the International Juvenile Justice Observatory, a children's rights NGO with headquarters located in Brussels, Belgium. I primarily assisted with the management of European projects about the efforts to prevent youth radicalization. I helped by writing policy papers, proofreading, translating from French to English and representing the organization at European Union events and conferences. I helped with the planning of two project conferences and provided spontaneous English interpretation at one of them (yikes). It was a wonderful way to learn about the functioning of NGOs on the European stage
